

# NRS - NURSING

## NRSX29 NCLEX Review

Credits 0

**Registration Requirement:** Successful completion of all prior nursing curriculum courses, each with a grade of "C" or better. Concurrent enrollment in NRS224 is required. This review course is intended to help prepare the students for the RN-NCLEX exam for licensure. Nursing content is reviewed and emphasis placed on subject areas tested in the national RN-NCLEX exam. Students review test taking strategies, prioritization, application and evaluation components of NCLEX style test questions.

## NRS110A Foundations of Nursing: Health Promotion - A

Credits 6

**Registration Requirement:** Acceptance into the Nursing program. Concurrent enrollment in NRS230 and NRS110B is required. This course introduces the learner to framework of the OCNE curriculum. The emphasis on health promotion across the lifespan includes learning about self-care as well as patient health practices. To support self and patient health practices, students learn to access evidence about healthy lifestyle patterns and risk factors for disease/illness, apply growth and development theory, interview patients in a culturally sensitive manner, identify members of an inter professional team, and use reflective thinking about their practice as nursing students.

|                   |               |             |          |
|-------------------|---------------|-------------|----------|
| <b>Additional</b> | <b>Course</b> | <b>Fee:</b> | \$335.00 |
|-------------------|---------------|-------------|----------|

## NRS110B Foundations of Nursing: Health Promotion - B

Credits 3

**Registration Requirement:** Acceptance into the Nursing program. Concurrent requisites: NRS110A and NRA230. This course introduces the learner to framework of the OCNE curriculum. The emphasis on health promotion across the lifespan includes learning about self-care as well as patient health practices. To support self and patient health practices, students learn to access evidence about healthy lifestyle patterns and risk factors for disease/illness, apply growth and developmental theory, interview patients in a culturally sensitive manner, identify members of an inter professional team, and use reflective thinking about their practice as nursing students. Includes classroom and clinical learning experiences. The clinical portion of the courses includes practice with selected core nursing skills.

|                   |               |             |          |
|-------------------|---------------|-------------|----------|
| <b>Additional</b> | <b>Course</b> | <b>Fee:</b> | \$787.00 |
|-------------------|---------------|-------------|----------|

## NRS111A Foundations of Nursing in Chronic Illness I - A

Credits 3

**Registration Requirement:** Completion of NRS110A and BI234, each with a grade of "C" or higher. Co-requisite: NRS231 and NRS232. Concurrent enrollment in NRS111B. The course introduces the learner to the application of clinical judgment for the care of patients across the lifespan who are experiencing chronic health conditions. Legal and ethical aspects of care are incorporated to guide evidence-based, person-centered care. The course includes classroom and clinical learning experiences.

|                   |               |             |          |
|-------------------|---------------|-------------|----------|
| <b>Additional</b> | <b>Course</b> | <b>Fee:</b> | \$335.00 |
|-------------------|---------------|-------------|----------|

## NRS111B Foundations of Nursing in Chronic Illness I - B

Credits 3

**Registration Requirement:** NRS110A and BI234, each with a grade of "C" or higher. Co-requisite: NRS231 and NRS232. Concurrent enrollment in NRS111A. The course introduces the learner to the application of clinical judgment for the care of patients across the lifespan who are experiencing chronic health conditions. Legal and ethical aspects of care are incorporated to guide evidence-based, person-centered care. The course includes classroom and clinical learning experiences.

|                   |               |             |          |
|-------------------|---------------|-------------|----------|
| <b>Additional</b> | <b>Course</b> | <b>Fee:</b> | \$864.00 |
|-------------------|---------------|-------------|----------|

## NRS112A Foundations of Nursing in Acute Care I - A

Credits 4

**Registration Requirement:** Concurrent enrollment in NRS112B. This course introduces the learner to application of clinical judgment for care of culturally diverse patients across the lifespan who are experiencing prevalent acute conditions or acute exacerbations of chronic conditions. Legal and ethical aspects of care are incorporated to guide evidence-based, patient-centered nursing care.

|                   |               |             |          |
|-------------------|---------------|-------------|----------|
| <b>Additional</b> | <b>Course</b> | <b>Fee:</b> | \$335.00 |
|-------------------|---------------|-------------|----------|

## NRS112B Foundations of Nursing in Acute Care I - B

Credit 1

**Registration Requirement:** Successful completion of all prior nursing courses with a grade of "C" or higher. Concurrent enrollment in NRS112A is required. This course introduces the learner to application of clinical judgment for care of culturally diverse patients across the lifespan who are experiencing prevalent acute conditions or acute exacerbations of chronic conditions. Legal and ethical aspects of care are incorporated to guide evidence-based, patient-centered nursing care. Includes classroom and clinical learning experiences.

|                   |               |             |          |
|-------------------|---------------|-------------|----------|
| <b>Additional</b> | <b>Course</b> | <b>Fee:</b> | \$710.00 |
|-------------------|---------------|-------------|----------|

## NRS112BL Foundations of Nursing in Acute Care I - B Lab

Credit 1

**Registration Requirement:** Successful completion of all prior nursing courses with a grade of "C" or higher. Concurrent enrollment in NRS112A is required. This course introduces the learner to application of clinical judgment for care of culturally diverse patients across the lifespan who are experiencing prevalent acute conditions or acute exacerbations of chronic conditions. Legal and ethical aspects of care are incorporated to guide evidence-based, patient-centered nursing care. Includes classroom and clinical learning experiences.

## NRS221A Nursing in Chronic Illness II and End of Life - A

Credits 4

**Registration Requirement:** NRS110A, NRS110B, NRS111A, NRS111B, NRS112A, NRS112B, NRS230, NRS231, NRS232, and NRS233, each with a grade of "C" or higher. Concurrent enrollment in NRS221B. This course builds upon Nursing in Chronic 1, with a focus on mental health conditions and end-of-life nursing care. In this course, learners will apply clinical judgment using person-centered care practices in caring for people with chronic physical and/or mental health conditions that affect functional status and may impact important relationships. Legal and ethical aspects of care are incorporated to guide evidence-based, person-centered nursing care.

|                   |               |             |          |
|-------------------|---------------|-------------|----------|
| <b>Additional</b> | <b>Course</b> | <b>Fee:</b> | \$335.00 |
|-------------------|---------------|-------------|----------|

**NRS221B Nursing in Chronic Illness II and End-of-Life - B**

Credits 4

**Registration Requirement:** Successful completion of all prior nursing curriculum courses with a grade of "C" or higher. Concurrent enrollment in NRS221A. This course builds upon Nursing in Chronic I, with a focus on mental health conditions and end-of-life nursing care. In this course, learners will apply clinical judgment using person-centered care practices in caring for people with chronic physical and/or mental health conditions that affect functional status and may impact important relationships. Legal and ethical aspects of care are incorporated to guide evidence-based, person-centered nursing care.

|                   |               |             |          |
|-------------------|---------------|-------------|----------|
| <b>Additional</b> | <b>Course</b> | <b>Fee:</b> | \$710.00 |
|-------------------|---------------|-------------|----------|

**NRS221BL Nursing in Chronic Illness II and End-of-Life - B Lab**

Credit 1

**Registration Requirement:** Successful completion of all prior nursing curriculum courses with a grade of "C" or higher. This course builds upon Nursing in Chronic I, with a focus on mental health conditions and end-of-life nursing care. In this course, learners will apply clinical judgment using person-centered care practices in caring for people with chronic physical and/or mental health conditions that affect functional status and may impact important relationships. Legal and ethical aspects of care are incorporated to guide evidence-based, person-centered nursing care.

**NRS222A Foundations of Nursing in Acute Care II and End of Life - A**

Credits 4

**Registration Requirement:** Concurrent enrollment in NRS222B. This course builds upon Nursing in Acute I, with a focus on more complex conditions in patients across the lifespan. Learners will continue to apply clinical judgment, with a focus on culturally diverse patients who are experiencing acute, complex, rapidly changing, multisystem conditions and situations. Legal and ethical aspects of care are incorporated to guide evidence-based, patient-centered nursing care. Includes classroom learning experiences.

|                   |               |             |          |
|-------------------|---------------|-------------|----------|
| <b>Additional</b> | <b>Course</b> | <b>Fee:</b> | \$335.00 |
|-------------------|---------------|-------------|----------|

**NRS222B Foundations of Nursing in Acute Care II and End-of-Life-B**

Credits 4

**Registration Requirement:** Successful completion of all prior nursing curriculum courses, each with a grade of "C" or higher. Concurrent enrollment in NRS222A. This course builds upon Nursing in Acute I, with a focus on more complex conditions in patients across the lifespan. Learners will continue to apply clinical judgment, with a focus on culturally diverse patients who are experiencing acute, complex, rapidly changing, multisystem conditions and situations. Legal and ethical aspects of care are incorporated to guide evidence-based, patient-centered nursing care. Includes clinical experiences.

|                   |               |             |          |
|-------------------|---------------|-------------|----------|
| <b>Additional</b> | <b>Course</b> | <b>Fee:</b> | \$710.00 |
|-------------------|---------------|-------------|----------|

**NRS222BL Foundations of Nursing in Acute Care II and End-of-Life - B**

Lab Credit 1

**Registration Requirement:** Successful completion of all prior nursing curriculum courses, each with a grade of "C" or higher. Concurrent enrollment in NRS221A. This course builds upon Nursing in Acute I, with a focus on more complex conditions in patients across the lifespan. Learners will continue to apply clinical judgment, with a focus on culturally diverse patients who are experiencing acute, complex, rapidly changing, multisystem conditions and situations. Legal and ethical aspects of care are incorporated to guide evidence-based, patient-centered nursing care. Includes lab experiences.

**NRS224A Integrative Practicum I - A**

Credits 2

**Registration Requirement:** Concurrent enrollment in NRS224B. This practicum course provides students with opportunities to apply theories and skills learned in previous nursing courses. It is designed to refine the clinical judgments, knowledge and skills necessary for safe and effective registered nurse practice, using a variety of evidence-based teaching and learning models. This course provides opportunities for analysis and reflection throughout the clinical experience and provides the student with evaluative criteria against which they can judge their own progress towards achieving course outcomes. Includes immersive clinical experience, seminar, self-directed study, which focuses on the transition from the student role to the professional nursing practice role.

|                   |               |             |          |
|-------------------|---------------|-------------|----------|
| <b>Additional</b> | <b>Course</b> | <b>Fee:</b> | \$160.00 |
|-------------------|---------------|-------------|----------|

**NRS224B Integrative Practicum I - B**

Credits 7

**Registration Requirement:** Concurrent enrollment in NRS224A. This practicum course provides students with opportunities to apply theories and skills learned in previous nursing courses. It is designed to refine the clinical judgments, knowledge and skills necessary for safe and effective registered nurse practice, using a variety of evidence-based teaching and learning models. This course provides opportunities for analysis and reflection throughout the clinical experience and provides the student with evaluative criteria against which they can judge their own progress towards achieving course outcomes. Includes immersive clinical experience, seminar, self-directed study, focusing on the transition from the student role to the professional nursing practice role.

|                   |               |             |          |
|-------------------|---------------|-------------|----------|
| <b>Additional</b> | <b>Course</b> | <b>Fee:</b> | \$810.00 |
|-------------------|---------------|-------------|----------|

**NRS230 Clinical Pharmacology I**

Credits 3

**Registration Requirement:** Acceptance into the Nursing program. Concurrent requisites: NRS110A and NRS110B. This course introduces the theoretical background that enables students to provide safe and effective care related to drugs and natural products to persons throughout the lifespan. It includes the foundational concepts of principles of pharmacology, as well as numerous classes of drugs. Students will learn to make selected clinical decisions in the context of nursing regarding using current, reliable sources of information, understanding of pharmacokinetics and pharmacodynamics, developmental physiologic considerations, monitoring and evaluating the effectiveness of drug therapy, teaching persons from diverse populations regarding safe and effective use of drugs and natural products. Drugs are studied by therapeutic class.

|                   |               |             |          |
|-------------------|---------------|-------------|----------|
| <b>Additional</b> | <b>Course</b> | <b>Fee:</b> | \$220.00 |
|-------------------|---------------|-------------|----------|

**NRS231 Clinical Pharmacology II**

Credits 3

**Registration Requirement:** NRS230, with a grade of "C" or better. Concurrent requisites: NRS111A, NRS111B, and NRS232.

This sequel to Clinical Pharmacology I continues to provide the theoretical background that enables students to provide safe and effective nursing care related to drugs and natural products to persons throughout the life span. Students will learn to make selected clinical decisions in the context of nursing regarding using current, reliable sources of information, monitoring & evaluating the effectiveness of drug therapy, teaching persons from diverse populations regarding safe & effective use of drugs and natural products, intervening to increase therapeutic benefits and reduce potential negative effects, & communicating appropriately with other health professionals regarding drug therapy. Contains drugs & products not in NRS230.

**Additional Course Fee:** \$220.00

**NRS232 Pathophysiological Processes I**

Credits 3

**Registration Requirement:** Concurrent enrollment in NRS111A, NRS111B, and NRS231.

This course introduces pathophysiological processes that contribute to many different disease states across the life span and human responses to those processes. It includes foundational concepts of cellular adaptation, injury and death; inflammation and tissue healing; fluid and electrolyte imbalances; and physiologic response to stressors and pain, and pathophysiological processes. Students learn to make clinical decisions using current, reliable sources of pathophysiological information, selecting and interpreting nursing assessments based on a knowledge of pathophysiological processes, teaching persons from diverse populations about pathophysiological changes, and communicating with other health professionals.

**Additional Course Fee:** \$220.00

**NRS233 Pathophysiological Processes II**

Credits 3

**Registration Requirement:** Concurrent enrollment in NRS112A and NRS112B.

This sequel to Pathophysiological Processes I continues to explore pathophysiological processes that contribute to disease states across the life span and human responses to those processes. Students learn to make selected clinical decisions in the context of nursing using current, reliable sources of pathophysiology information, selecting and interpreting focused nursing assessments based on knowledge of pathophysiological processes, teaching persons from diverse populations regarding pathophysiological processes, and communicating with other health professionals regarding pathophysiological processes. The course addresses additional pathophysiological processes not contained in Pathophysiological Processes I.

**Additional Course Fee:** \$220.00

*Course fees are subject to change. Additional section fees (web, hybrid, etc.) may apply.*
